About Me

Aspiring web developer with a strong foundation in front-end and full-stack technologies, including React, Node.js, and MongoDB. Experienced in building dynamic, responsive web applications and collaborating in Agile teams. Fluent in English and Spanish, with excellent communication skills. Passionate about innovation, continuous learning, and contributing to impactful projects in the tech space.

Education

UCF Coding Bootcamp

Completion Date: September 12, 2024

- Intensive program focused on full-stack web development, including both front-end and back-end technologies.

Skills

- **Front-End Development:** HTML5, CSS3, JavaScript, Bootstrap
- **Full-Stack Development:** Node.js, Express.js, SQL, RESTful APIs, MongoDB
- **Web Development Frameworks:** React
- **Database Management:** SQL, MongoDB
- **Project Management:** Agile Development, Git, Source Control (GitHub)
- **Additional Skills:** Testing, Object-Oriented Programming (OOP), Computer Science Fundamentals

Experience

Team Collaboration & Agile Development

Collaborated in Agile development teams of 4 members to deliver full-stack web applications within sprint deadlines.

Conducted code reviews, provided technical feedback, and improved overall code quality using Git for version control and peer reviews.

Full-Stack Web Application Projects

React Portfolio: Built a modern, responsive portfolio using **React.js**, showcasing my web development skills and projects in an interactive way. Designed with **HTML**, **CSS**, and **JavaScript**, optimizing for both performance and maintainability.

Social Network API: Developed a RESTful API for a social network web application using **Node.js**, **Express.js**, **MongoDB**, and **Mongoose**. Designed API endpoints for creating, retrieving, updating, and deleting users and associated thoughts and reactions. Also Handled user management, thought posting, reactions, and friend lists.
