About Me

I am an aspiring web developer with a passion for creating dynamic, responsive websites and applications. I have been coding since high school and my journey in web development has equipped me with a solid foundation in both front-end and full-stack technologies, enabling me to build efficient, user-friendly web applications from scratch or by leveraging modern frameworks. As a fluent speaker of both English and Spanish, I bring strong communication skills and the ability to collaborate effectively in diverse teams. I'm eager to contribute to innovative projects, continually learn, and grow in the ever-evolving tech landscape.

Education

UCF Coding Bootcamp
Completion Date: September 12th, 2024

Skills

- **Front-End Development:** HTML5, CSS3, JavaScript, Bootstrap, jQuery

- **Full-Stack Development:** Node.js, Express.js, SQL, RESTful APIs, AJAX, MongoDB

- **Web Development Frameworks:** React

- **Database Management:** Structured (SQL)

- **Project Management:** Agile Development, Team Collaboration, Git, Source Control

- **Additional Skills:** Testing, Object-Oriented Programming (OOP), Computer Science Fundamentals

---

Experience

Team Collaboration & Agile Development
Worked in collaborative team environments, practicing Agile development methodologies. Contributed to issue tracking, functional feedback, and project management.

Technical Interview Preparation
Built strong foundational knowledge in computer science principles and coding practices, preparing for technical interviews with hands-on experience and project-based learning.
